

SR-35 Indoor Siren

Stay Alert to
Protect Your Premises

- Siren output level 95dB at 1 meter
- Remote Programming Capability
- Wireless, lightweight, easy to install

SR-35 is a battery-operated wireless indoor siren, generating a 95-decibel siren to alert users to possible intruders, emergencies, and safety incidents. The multi-functional indoor siren can work with the control panel to emit entry and exit delay beeps. Capable of remote programming, users can conveniently configure setting for SR-35.

The SR-35 generates unique alarm sounds for fire and burglary to audibly inform the user of the type of danger at hand. Encased in an elegant, modern design, the SR-35 will effortlessly fit in your home décor. SR-35 is lightweight and easy to install, giving users the flexibility to install it anywhere in the house. SR-35's tamper-deterrent feature also protects against unauthorized removal or sabotage.
