

Smoke detector VESTA

- VESTA smoke detector
- Self-diagnostic function
- Incorporates 85dB siren
- Immunity to surges
- Works with 3 alkaline batteries

Reference / Model	VESTA-421 / SD-32-ALK-F1
Optical sensor capable of preventing false alarms coming from the stove	
Detection of polyurethane foam in fast-moving, slow-burning fires	
Reflective photoelectric sensor to detect smoke from any source, especially	slow fires
Immunity to high voltage power surges	
Automatic monthly calibration to readjust the detection threshold value	
Self-diagnostic function to ensure optimum performance	
Powerful 85dB siren	
Random supervisory signals to verify system integrity	
868 MHz radio frequency	
Powered by 3 alkaline batteries	
Operating temperature of -10°C \sim +45°C (-10°C \sim +45°C)	
Relative humidity up to 85% (non-condensing)	
Dimensions: 105 (W) x 105 (H) x 41 mm
