VESTA-418
RP-32-SF1

VESTA Radio Extender/Repeater

SF1

- VESTA radio extender/repeater
- Extends the communication range between Gateway and the sensors via radio
- Simplified learning and configuration
- Simplified remote configuration
- F1/SF1 technology
- Extended radio communication with higher speed
- Compatible with Pircams F1/SF1
- Intelligent signal filtering
- Tamper tamper

Reference / Model	VESTA-418 / RP-32-SF1
Enables faster and more effective extension of radio communication range to hard-to-reach areas	
Complete remote management: **Simplified configuration from SmartHomeSec** (Add, Edit and delete repeater devices)	
Intuitive visualization:	
Clear graphical interface with repeater map in the APP and web portal.	
Immediate identification of repeater elements	
Real-time signal strength display	
Identification of areas with insufficient coverage with colors	
Use of SF1 technology	
Compatible with SF1 Pircams	
Improved transmission speed	
Simplified learning and configuration process	
Intelligent signal filtering eliminates repetitive signal transmissions	

VESTA®

VESTA Radio Extender/Repeater

Reference / Model	VESTA-418 / RP-32-SF1
12V, 1A power supply	
Battery backup included: Rechargeable AA Ni-Mh battery pack, 1100 mAh, up to 30 hours	
Protection against unauthorized tampering	
Four LED indicators show power, installation, transmit and receive status	
Periodic supervisory signals to check system integrity	
Suitable for residential and commercial use	
Operating temperature 0°C ~ +45°C (32°F ~ +40°F)	
Operating relative humidity 85% (non-condensing)	
Dimensions: 186 (W) x 130 (H) x 30 mm
