

Security smoke generator for VESTA system

- Smoke generator for VESTA system
- Ideal for environments up to 150 m³
- Fast saturation: 100-130 m³ in 25 seconds
- Non-toxic smoke with laboratory certification
- Installation without electrical connections
- Battery life up to 4 years
- Capsule with 5-year life
- Programmable siren and 360° adjustable nozzle
- Reinforced nylon casing and metal nozzle resistant to high temperatures.

Nebula Vesta represents today the best way to prevent a robbery, since it is a device designed to saturate the environment in which it is placed with a smoke curtain that prevents anyone from operating inside it.

The main features are its small size, low installation costs and ease of use. Nebula Radio is a device that can be combined with a Vesta control panel to significantly increase effectiveness.

Reference / Model

VESTA-156N / NEBULAVESTA

Main features

Saturation capacity around 100/130 cubic meters with a delivery time of 25 seconds

Manual activation of the smoke generator remotely with a simple push of a button

Automatic activation of smoke alarm with single or double coincidence alarm

Smoke generator activation with preset rules linked to certain conditions (time, other activated devices, system status, etc. ...)

Low battery signals and monitoring of the activation module, constantly supervised by the control panel

Tamper-proof, tamper-protected smoke pump

Specifications

Saturable volume from 100 to 130 cubic meters

Smoke dispensing duration time: 25 seconds

Adjustable smoke outlet nozzle

Supply voltage of 1.5V ~ 12V

Security smoke generator for VESTA system

Reference / Model	VESTA-156N / NEBULAVESTA
Activation current of 2 Ah for 4 msec.	
Power supply: 3V DC battery pack	
Standby consumption: 0.01 mA	
Instantaneous consumption after smoke ignition: 1,700 mA (100 msec)	
Consumption in alarm: 500 mA	
Storage temperature: -20°C ~ +55°C (-20°C ~ +55°C)	
Operating humidity 90%	
Color: white	
Dimensions: 185 x 100 x 105 mm	
Weight: 850 g (including cap and batteries)	
Smoke canister shelf life: 5 years	
CE Classification: 1.4s	
CE Category: P1	
Name: 19 EL
